

CUTSHEET

DEEP SUBSURFACE / @EarlyAge™ NANO DYE, PH NEUTRAL DENSIFIER / BRILLIANT APPEARANCE

Deep Color & Densify In One

Green Umbrella® ColorDeep™ combines an environmentally formulated densifier with a nano formulated interior NanoDye™ to densify and color in a single step. A translucent, ph neutral dye utilizes nano-sized particulates to deeply penetrate the concrete, diving deep into the subsurface and bonding to promote a longer color floor life-cycle. ColorDeep™ is insoluble and completely reactive. A treatment designed for architectural concrete floors is highly abrasion-resistant, harder, denser, and deeper within concrete for a less porous surface. Formulated to be a CrossOver™ treatment safe to install S.O.L.O.™¹ in any environment, odorless and non-solvent, non-flammable, place @Profile&Polish™, use @EarlyAge™ or @MatureAge™, in facilities under construction or occupied. ColorDeep™ produces a substrate that will stain less and wear longer, reducing maintenance frequency and extending the colored concrete's life cycle. In a single step, advance architectural concrete floor profile projects, by cutting labor, downtime and environmental impact.

CUT LABOR

- S.O.L.O.¹ application
- Densifies & colors concrete in a single treatment
- Eliminates Acetone Application
- No residue to scrub/remove

CUT DOWNTIME

- 30 minute dwell time
- No residue to scrub/remove
- Optional @EarlyAge concrete

CUT ENVIRONMENTAL IMPACT

- Alternative for professionals conscience of environmental impact of acid stains, epoxies or flammability of carrying agents
- Reduces porosity, increased lifecycle
- pH neutral & no VOC's

¹Spray-On, Leave-On

Green Umbrella® ColorDeep™ combines an environmentally formulated densifier with a nano formulated interior NanoDye™ to densify and color in a single step. A translucent, ph neutral dye utilizes nano-sized particulates to deeply penetrate the concrete, diving deep into the subsurface and bonding to promote a longer color floor life-cycle.

VERSATILE ARCHITECTURAL APPLICATIONS

Ideal for **interior**, vertical or horizontal Decorative Concrete Applications such as retail spaces & showrooms, restaurants, offices, lobby areas, museums, municipalities, airports, hospitals, schools, fire-stations or wherever indoor concrete surfaces are maintained.

EASY TO INSTALL - SIMPLE TO MAINTAIN

ColorDeep is combined with Green Umbrella® NanoDye™. Apply S.O.L.O.¹ with a GU recommended sprayer for coverage up to 400 SF per gallon with GU T-bar and air dry. Proceed with best practice procedures for abrasively polished floors. To maintain, simply damp mop, auto scrub and periodically burnish using Green Umbrella Life Cycle™ maintenance system treatments.
