

Green Umbrella ColorDense Plus is an environmentally friendly colorant that not only gives you beautifully colored concrete but also hardens and densifies floors at the same time. Green Umbrella ColorDense Plus can be resin polished up to Green Umbrella Resin (GUR) 3000 grit diamond abrasives on most surfaces. Green Umbrella ColorDense Plus is specially engineered to enhance the natural appearance of polished concrete floors while protecting floors from water, oils and stains. Green Umbrella ColorDense Plus colorants are micro pigments, UV stable and will not fade, making it ideal for exterior applications.

The color palette offered is limitless, custom colors are available. Green Umbrella ColorDense Plus is a repairable product; there is no need to re-hone the floor as is common when repairing/re-introducing concrete dyes. The combination of coloring and densifying saves you time and money.

Green Umbrella ColorDense Plus includes the added benefit of a chloride screen and is specially formulated for use in food service operations, garages, airports, hospitals and most any other areas where concrete surfaces are maintained.

SAFER FOR THE ENVIRONMENT

Green Umbrella ColorDense Plus is a responsible alternative for professionals concerned about the environmental impact of acid stains and dyes. Unlike solvent-based dyes Green Umbrella ColorDense Plus is non-flammable, alleviating the concern that may come with the use of certain carrying agents. Green Umbrella ColorDense Plus is compliant with all state VOC standards.

GREEN UMBRELLA COLORDENSE PLUS IS AN ENVIRONMENTALLY RESPONSIBLE PRODUCT
