GREEN UMBRELLA®

ColorFlash

SUBSURFACE / MatureAge[™] COLORANT / QUICK-DRY

Green Umbrella® ColorFlash™ is part of our colorant system meeting Architectural Concrete design professionals versatile product demands for an interior concrete colorant. ColorFlash basic use is a Subsurface Interior Pigmented-Salt Colorant. Used in applications where acid stains were specified but where a translucent, quick-application rich color is desired.

Ideal for **interior**, vertical or horizontal Decorative Concrete Applications such as retail spaces & showrooms, restaurants, offices, lobby areas, museums, municipalities, airports, hospitals, schools, fire-stations or wherever indoor concrete surfaces are maintained.

FOOD SERVICE PARKING DECKS GARAGES, HOSPITALS **RETAIL SPACES &** SHOWROOMS RESTAURANTS **BUSINESS OFFICES** LOBBY AREAS MUSEUM AIRPORTS, HOSPITALS

SUBSURFACE / MatureAge [™] COLORANT / QUICK-DRY

GREEN UMBRELLA®

ColorFlash

COLOR QUICK AS A FLASH Green Umbrella® ColorFlash™ is an interior, subsurface, translucent, ph neutral, non-acid, solvent-based concrete colorant.

Introduced into any abrasively profiled concrete surface for color that is vibrant and crisp. The powdered salt-pigment formulation produces a unique color option for architectural concrete. Mixed with VOC-exempt, non-acid, Acetone as a carrying agent, ColorFlash™ introduces the colorant into the concrete as "Quick as a Flash". The quick-to-dry surface cuts downtime during installation, making it the right choice for color patterns and logos. Choose from more than twenty solid colors to produce a beautiful, mottled appearance. Apply a single S.O.L.O.™1 application for a translucent mottled appearance dyed concrete surface, or layer it and combine for endless color possibilities. It is critical to Protect ColorFlash™ from oxidation with CrossOver™ densifiers such as DryShield™ and colorguard Shield & Enhance™ to prevent color loss. ColorFlash™ changes any bare concrete canvas into a work of art!

"FROM DESIGN TO COMPLETION"

VERSATILE

SUSTAINABLE

ECONOMICAL

"Green Umbrella's architectural concrete floors provide a solid, durable surface with a **versatile** surface-design options such as aggregate exposure, surface appearance and color. Providing a more **sustainable** option by elimination of off-gassing, providing highly reflective surfaces if desired and the longest product lifecycle of conventional floors. Additional benefits are lowering lighting, heating, and cooling costs and reducing construction waste. Architectural concrete floors are also **economical** with reduced construction downtime, a lower initial and maintenance cost and provide an immediate value-engineered design. An element of **DESIGN** that is versatile, sustainable and economical"
