

GREENUMBRELLA®

ColorPac

THE 'IN' CONCRETE COLORANT

INTEGRAL / *@EarlyAge™* NATURAL IRON OXIDE / UV STABLE

ColorPac is one of Green Umbrella concrete colorants meeting Architectural Concrete design professionals' versatile product demands for exterior & interior concrete. ColorPac basic use is a *Pigmented Iron Oxide*. Used in applications where concrete dyes or stains are usually specified but where a high-performance, sustainable, U.V. stable and where R.O.T. is a concern.

ARCHITECTURAL APPLICATIONS

DEMANDING APPLICATIONS; WAREHOUSE/DISTRIBUTION CENTERS, FOOD SERVICE, PARKING DECKS, GARAGES, HOSPITALS.

DECORATIVE CONCRETE APPLICATIONS; RETAIL SPACES & SHOWROOMS, RESTAURANTS, BUSINESS OFFICES, LOBBY AREAS, MUSEUMS, MUNICIPALITIES AIRPORTS, HOSPITALS, SCHOOLS, FIRE-STATIONS.

READY-MIX APPLICATIONS; PRE-CAST, TILT-UP, ORNAMENTAL CONCRETE, SHOTCRETE, MORTAR, CMU (CONCRETE MASONRY UNITS) PAVERS, ROOF TILES, RETAINING WALL UNITS, STUCCO, PLASTER, CAST STONE

INTEGRAL / @EarlyAge™ NATURAL IRON OXIDE / UV STABLE

GREENUMBRELLA®

ColorPac

THE 'IN' CONCRETE COLORANT Green Umbrella® ColorPac™ integral colors are natural iron-oxide pigments that are permanent and UV stable—engineered to establish performance with even color appearance, stability, and durability @EarlyAge concrete placements. ColorPac™ is packaged for the concrete producer in mind with repulpable bags. Use as an alternative to topically applied color and save downtime & labor @construction at the same cost or lower. Life Cycle @occupany is much greater being an "In" the concrete component compared to unpredictable near-surface colorants. Our color pallet extends over 30 colors with additional intensity options. Green Umbrella® iron-oxide pigments are natural and made in the U.S.A.; providing a solution for those concerned about conventional concrete colorants' environmental impact.

“GIVING YOU THE DIRECTION YOU NEED.”

INITIATIVE

INSIGHT

SPECIFICATION

“Green Umbrella starts by CONSULTANTS showing initiative. Design professionals, owners, and contractors need someone who is willing to take the initiative in connecting you with the solutions for sustainable concrete. We freely share industrial insight by investing in our industry with Continued Education Presentations created for the design professionals, general contractors, and craftsmen. We can assist you in understanding past project failures, helping you build your specifications for future success. With all the products needed on a project, it is essential to have someone “Giving the Direction you Need”.
