

GREEN UMBRELLA® DeepClean & Maintain

CLARIFY AND CONDITION @ HIGHEST CONCENTRATION

Green Umbrella® DeepClean & Maintain™ is a high-performance, architectural concrete subsurface floor cleaner that works within the Health Sentinel system as a daily or frequent use concrete cleaner. Featuring powerful contaminant releasing properties, clarity enhancer, and when paired w/Slip Resist works to significantly enhance slip resistance. Engineered in a highly concreted formulation to significantly reduce your impact on the environment and logistics expense. The unique properties penetrate porosities for a deep-cleaning action that fights to breakdown grease, oil, and other contaminants — all without leaving any surface residue. An advanced alternative to high pH or sodium based cleaners and the damaging effects of etching, gloss reduction, surface breakdown or contributing to ASR. The conditioning formula penetrates, and is absorbed into the concrete, to clean and clarify promoting a healthy concrete restoration. DeepClean & Maintain with GUnanolInside™ clarifies and maintains - improving lifecycle, health, safety and wellness.

CUT LABOR

- Safe for use on many floor surfaces
- Cleans & Restores concrete
- Restoration of concrete surface protects finish, extending lifecycle

CUT DOWNTIME

- Air dry within minutes
- Improves auto-scrubber efficiency
- No films or residue

CUT ENVIRONMENTAL IMPACT

- Compact by design formulation
- Zero VOC & pH neutral
- No Phosphates, Sodiums or Butyls

VERSATILE ARCHITECTURAL APPLICATIONS

Ideal for **interior** or **exterior**, vertical or horizontal in *Demanding Applications*; ware-house/distribution centers, food service, parking decks, garages, hospitals, or similar & specifically for dye and pigment in *Decorative Color Applications*; retail spaces & showrooms, restaurants, business offices, lobby areas, museums, municipalities, airports, hospitals, schools, fire-stations, or most concrete surfaces.

EASY TO INSTALL - SIMPLE TO MAINTAIN

For daily cleaning introduce DeepClean & Maintain™ (1:512) by volume or 1 gallon of water to 0.25 oz of cleaner. For deep cleaning use at 1:128 or 1 ounce per gallon. The cleaning solution may be used in an auto scrubber or a mop and bucket. For heavily soiled concrete, double scrub and allow 30 minute dwell time. Concrete may be Burnished with UHS GreenGloss burnisher periodically. Clean as 'Prescribed' in your Health Sentinel Program - Audit, Analyze, Prescribe.
