### NOTE:

Green Umbrella™ Products are environmentally friendly and contain low VOCs. Always read MSDS and take into account time, temperature and humidity.

Indoor

Outdoor

Autoscrub

Broom

## SURFACE PREPARATION

Remove anything off the floor that can be damaged by water. Green Umbrella Green Clean & Degreaser is non-toxic and environmentally friendly.

### NON-GHP FLOORS or OUTDOOR CONCRETE

1. Dilute 30 parts water to 1 part cleaner by volume (1 gallon of water to 4oz of cleaner).
2. On any open concrete area simply mop or broom on product, scrub, then remove.

In cases of heavily soiled concrete Green Umbrella™ Green Clean & Enzyme Degreaser should be allowed an extended dwell time before removal. A second application may be necessary.

### GHP Floor

1. Dilute 30 parts water to 1 part cleaner by volume (1 gallon of water to 4oz of cleaner).
2. The cleaning solution may be run through an auto scrubber or with a mop and bucket, scrub, then remove.

In cases of heavily soiled concrete Green Umbrella™ Green Clean & Enzyme Degreaser should be allowed an extended dwell time before removal. A second application may be necessary.

## ROUTINE MAINTENANCE

1. Thoroughly sweep all debris from floor.
2. Mop or Autoscrub with Green Clean & Maintain or Green Clean & Degreaser
