WAREHOUSE/DISTRIBUTION CENTERS

FOOD SERVICE

PARKING DECKS

GARAGES, HOSPITALS

DECORATIVE CONCRETE APPLICATIONS:

RETAIL SPACES & SHOWROOMS

RESTAURANTS

BUSINESS OFFICES

LOBBY AREAS

MUSEUMS

AIRPORTS, HOSPITALS

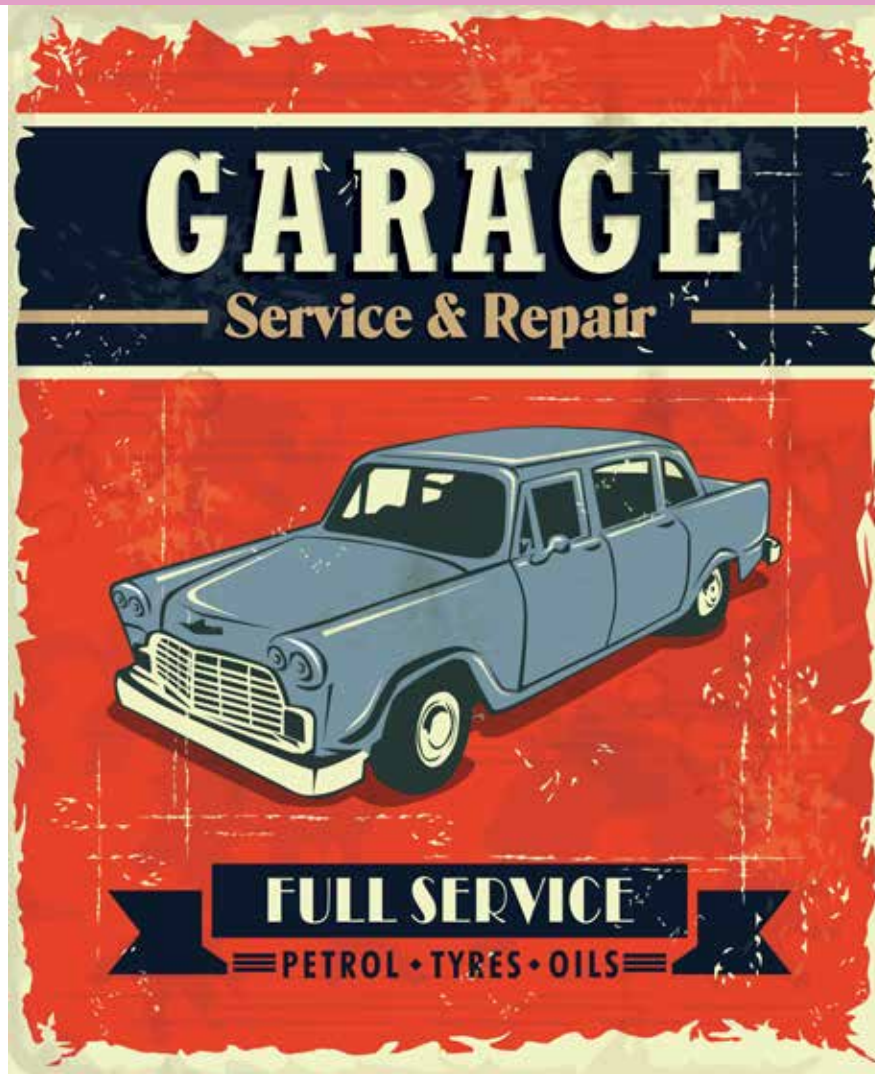

GREENUMBRELLA®

GreenClean & Degreaser

Green Umbrella® GreenClean & Degreaser™ is a concentrated degreaser for architectural concrete floors. Utilizing enzymes as catalysts in cleaning that speeds up the natural processes rather than creating problematic waste that is difficult for water treatment plants to manage. This high-quality formula removes grease, hydrocarbons, and stains more effectively than previously possible. A time-release formulation does not bring the damaging effects of high ph, phosphates, sodium hydroxides, or butyls that produce damaging effects on the surface, such as etching and gloss reduction, unlike conventional cleaners that are acidic, caustic, solvent, chlorine, or bacterial. Green Umbrella™ Green Clean & Degreaser is fragrant, hypo-allergenic, non-toxic, and non-caustic and free of harsh fumes, vapors and phosphates, chlorine, and petroleum surfactants. Enzymes are not corrosive and can safely be used on any surface not harmed by water. As with all Green Umbrella LifeCycle Maintenance System Treatments, clear the concrete pores of harmful containments.
