

GREENUMBRELLA® SHIELD & PROTECT

RESISTING SALT & WATER

SUBSURFACE / WATER RESISTANT HARDENER/ CHLORIDE SCREEN W/DEICER RESISTANCE

ARCHITECTURAL APPLICATIONS

Green Umbrella® Shield & Enhance™ is part of our concrete treatments meeting Architectural Concrete design professionals' versatile product demands for an interior concrete colorant shield, or an interior/exterior salt protector and hardener. Shield & Enhance basic use is a *Penetrating Completely Reactive Silane Modified Densifier*. Used in applications where basic hardeners are specified but where a color guard with the highest chemical intrusion, color protection and high-performance concrete hardener is desired.

Ideal for **interior** or **exterior**, vertical or horizontal in Demanding Applications; highways, bridge decks, waterways, municipalities, sidewalks, warehouse/distribution centers, food service, parking decks, garages, hospitals, retail spaces & showrooms, restaurants, business offices, lobby areas, museums, municipalities, airports, hospitals, schools, fire-stations, or most concrete surfaces.

SUBSURFACE / WATER RESISTANT HARDENER/ CHLORIDE SCREEN W/DEICER RESISTANCE

GREENUMBRELLA®
SHIELD&PROTECT

Resisting Salt & Water

Green Umbrella® Shield & Protect™ is a premium environmentally formulated industrial grade densifier that deeply penetrates and reacts with the concrete preventing concrete off-dusting and a surface that is harder and less porous—exceptionally shielding the damaging effects of water and salt with chloride prevention of over ninety-percent. From parking decks to beach exposed architecture, Shield & Protect screens concrete against deicers, saltwater, and hardener of choice in freeze-thaw environments. Significant abrasion resistance increase over untreated concrete. Shield & Protect darkens open concrete slightly, and on burnished, troweled concrete can have a clarified-gloss. An odorless, water-based solution that is non-carcinogenic and yet more effective than alternatives. Shield & Protect™ takes only one S.O.L.O.™¹ application and is packaged R.T.U.², resists salt and water for sustainable concrete.

“GIVING YOU THE DIRECTION YOU NEED.”

INITIATIVE

INSIGHT

SPECIFICATION

“Green Umbrella starts by CONSULTANTS showing initiative. Design professionals, owners, and contractors need someone who is willing to take the initiative in connecting you with the solutions for sustainable concrete. We freely share industrial insight by investing in our industry with Continued Education Presentations created for the design professionals, general contractors, and craftsmen. We can assist you in understanding past project failures, helping you build your specifications for future success. With all the products needed on a project, it is essential to have someone “Giving the Direction you Need ”.
