

GREEN UMBRELLA® **SoloCure**

PENETRATING DENSIFICATION & PROTECTIVE CURE

SUBSURFACE / HYBRID ASTM C-309 MEMBRANE CURE & HARDENER / SINGLE APPLICATION

Green Umbrella® SoloCure is part of our concrete treatments that meet design professionals' versatile product demands to advance the concrete schedule and cut downtime. SoloCure primary use is a *Penetrating Film-Forming C-309 Cure & Reactive Insoluble Hydrophobic Densifier*.

Used in applications where 309 cure were used and were later a concrete densifier was later applied. Solocure's hybrid formulation provides a value-engineered solution.

**DEMANDING APPLICATIONS:
WAREHOUSE/DISTRIBUTION CENTERS**

**FOOD SERVICE
PARKING DECKS
GARAGES, HOSPITALS**

**DECORATIVE CONCRETE
APPLICATIONS:**

**RETAIL SPACES &
SHOWROOMS
RESTAURANTS
BUSINESS OFFICES
LOBBY AREAS
MUSEUMS
AIRPORTS, HOSPITALS**

ARCHITECTURAL APPLICATIONS

SUBSURFACE / HYBRID ASTM C-309 MEMBRANE CURE & HARDENER / SINGLE APPLICATION

GREENUMBRELLA®
SoloCure

**PENETRATING DENSIFICATION
& PROTECTIVE CURE**

Green Umbrella® SoloCure™ is a water-based, membrane-forming curing compound and densifier that meets ASTM C-309; this S.O.L.O. formula can be applied on @Early-Age slabs immediately after place and finish. One of the most innovative products on today's market, SoloCure saves time and money during placement by replacing multiple products with one easy-to-use application. This product is specifically designed for concrete that needs long-term protection against heavy wear & abuse without the high VOC content in conventional products. The membrane will form on the surface of the concrete restricting moisture from evaporating while allowing the hardener to penetrate deep into the matrix for improved control over both curing times and strengthening properties.
